

**PRICE LIST (AS ON 01.03.2017) OF CORE & NON
CORE JUTE MACHINERY AND THEIR
SPECIFICATIONS AS PROVIDED BY THE
ENLISTED VENDORS**

Sl. No.	Name of the Vendor	Broad Category	Name of the Machine	Specification of the Machine	Unit Basic price (INR) (Lakh)	Minimum Basic Price (INR) in Lakh
1	Golden India	Spreader	Modified Jute Spreader Machine with pneumatic Roll Former unit complete	Sliver Roll Dia. 48" x 8 1/2" wide, 10 HP x 960 RPM Motor, Delivery Speed 182 fpm, Draft 10-11, Gear & Chain Sprocket, Hob cut teeth, Crank Drop forged Carbon steel	20.50	20.50
2	Star Industries	Spreader	Jute Spreader Machine	with pneumatic/TL Type Roll former with dust extractor including centralized lubricating system	21.00	
3	Lagan Engineering Company Limited	Spreader	Jute Spreader Machine	Lattice driven feed conveyor section, chain driven slow section complete with chain fallers (32 nos x 17 pairs each) and fast section push bar type with 19 LH & 19 RH fallers fitted with suitable forged crank. Complete with pneumatic roll former, and electric driving arrangement	20.50	
4	S. G. Industries	Spreader	Jute Spreader Machine	Produce compact Hackled, cleaned from Foreign materials and emulsified jute rolls of 4 1/2" dia and 6 1/2" width or 50" dia & 8 1/2" width to be fed directly to Breaker Card after giving proper piling time, complete with Roll Former, Electrical Motor, Starter, Main Switch, V-Belt, Motor Pulley, & Motor Rail. supply of clean air system by the Blower unit complete with electrical for the fast chain tracks, supply of ducting for dust/fluff extractor unit complete electrical & bag filter, supply of centralized lubrication system complete with electrical for smooth running of the machine	22.40	
5	G.D. Industries	Spreader	Jute Spreader Machine	Jute Spreader Machine pneumatic Roll Former complete with dust collection unit, Blower & Motor centralization lubricant system fast and slow section Truck & Rail, Auto stop motion in Roll Former Machine.	21.00	
6	Zhejiang Golden Eagle, Co.; Ltd	Spreader	Jute Spreader Machine	Push bar type. Fallers on fast section capable of individual. Special drive to fallers giving smooth silent operation. Reach – slow chain 59", fast section 70". Pitch of bars in both cases 4 1/2". Equipped with steel feed table and steel lattice feed sheet. Arranged with dustproof roller bearings to driving shaft and fast section. Complete with Roll former and electric drive equipment. Capacity 600 kg/hr	US\$ 40,000
